FOREWORD

The Yearbook Staff of 1941 presents this book with the hope that in years to come you, our readers, may look back with happy thoughts on your four years at Wakefield High School. We know not your future destination, but we do know that the contents of this book will recall many happy friendships and the sincere comradeship of your Alma Mater.

"Seniors Today—Citizens Tomorrow" is the appropriate theme of the ORACLE for this year. As graduates, we shall form the bulwark of our country's greatness tomorrow. Many of the Class of 1941 are destined to become the leaders of this country; therefore we believe that the theme portrays our truest ideals for the future.

NORMAN E. WHITON, '41
Editor-in-Chief

ACKNOWLEDGMENTS

Since it is impossible to thank individually all persons who have helped in the editing of the ORACLE for this year, the Staff welcomes this opportunity to thank the business managers and the typists for their painstaking work; Miss Bernice Caswell, for her expert guidance, without which the Yearbook would have been impossible; and Mr. Paul W. Mortimer of the WAKEFIELD ITEM COMPANY for his invaluable assistance in determining the format of this book. We should like also to thank the members of the class who submitted cover designs and to congratulate Virginia Titus, who created our attractive cover.

“TODAY DECIDES TOMORROW”

What does this motto really signify? To my mind it seems to tell each of us that what we try to do today will fit us for the trials in the world of tomorrow.

We must keep one thought in mind: We are the citizens of tomorrow. What we do and what we become during our school years are the qualities on which the greatness of our country rests.

The history of the world proves that the inventions, the discoveries, and the benefits of mankind are only the sums of the qualities that our ancestors have worked to attain. This fact means that we must shape our lives and profit by the mistakes of our elders so that we can make the world a better place in which to live.

The world today is in a turmoil with wars, revolutions, and avarice. Let us as graduates of Wakefield High prove to all men that we shall never be at fault for causing any stain against the town, the state, or the country in which we live. We are determined to live in peace and to fit ourselves for a place in the world of tomorrow by our actions now—TODAY.

OSCAR LESLIE WOOD

"Ozzy"

Aeronautical School

Oscar came to us from the Centre School in Everett, which was a loss for them and a gain for us. Although he is one of the reserved members of our class, his friends agree he has a most genial personality. We are sure that you will succeed as an aircraft motor mechanic, "Ozzy."

CATHERINE CARBONE

We're all rooting for you in your future goal as a business woman, Catherine.

EDWARD CHRISFIELD, Jr.

Hebron Academy

Football (1, 2, 3, 4); Basketball (1, 2, 3).

"Nemo," without doubt, is one of the most popular and attractive boys in our class. Although he has won recognition in all sports, he was outstanding on the football field and accomplished excellent work in every game. On the basketball floor, he was a man of great skill and considered one of the best players in the state. Because of his sportsmanship, good humor, and fun-loving nature, he will be welcomed at Hebron.

FRANCIS COSMAN

"Frannie"

Stenographer

Hockey (4).

Francis Cosman, previously of the Warren School, has often been lost in our congested corridors because of his diminutive stature. This fact, however, has not prevented "Frannie" from getting his high school education in preparation for a stenographer's position. We are certain in the future that we shall often hear Francis' name in business transactions.

DELIA DELROSSI

"Tillie"

Secretary

Senior Play Usher (4).

THOMAS KILLORAN

"Tom"

Undecided

A real debater is "Tom." He always supports his theories, and although many times he is partly wrong, he helps his fellow students to see the other side more clearly. Continue to be a firm supporter of all your ideas, "Tom", and fame will be yours.

JOHN KNAPP

"Jack"

Aviation Mechanic

"Jack" is one of our tennis enthusiasts. He appears to be a rather taciturn fellow, but action, rather than words, is an essential of success in life. May all good fortune be yours, John.

BETTE G. KNOPPING

"Trixie"

Salesgirl

Senior Play Candy Committee (4).

"Trixie" came to us from another town; yet we were glad to have her cheery disposition and winning smile to encourage us. She wants to be a salesgirl in a large store, and she certainly has the right qualifications for such a position. She would also like to specialize in domestic arts, and we are sure that she will accomplish this and any other task which she attempts. We anticipate Bette's going far in the merchandising field.

WALTER KOHLER

"Walt"

Skiing Instructor

Basketball (3, 4); Physical Instructor (3).

"Walt," a graduate of the Franklin School, has kept in the background of school activities, but his appealing manner has won for him the respect of his fellow classmates. Perseverance is his foremost virtue. Keep it up, Walter, and you'll be a ski instructor yet.

ROBERT D. MAHER

RUTH MONEGAN

"Ruthie"

Music

Glee Club (1, 2, 3, 4).

For the past four years the Girls' Glee Club and the entire high school have been fortunate in having Ruth Monegan as one of the soprano soloists. In the Senior Play and at various assemblies, "Ruthie" has contributed many pleasing solos. With such a sweet voice, she will be a good addition to any orchestra.

DAVID O'CONNOR

"Dave"

Undecided

Baseball (1, 2, 3).

"Dave," although a retiring sort of fellow, has made many friends since coming to us from the Franklin School. Most of us are acquainted with his ability on the baseball diamond. Best of luck in whatever field you choose, "Dave."

His plans for the future include some college or school, where we are confident of his success. Count us among your rooters, Ernest!

FRANK PERKINS

"Frankie"

THE SENIOR PLAY

December 6 and 7, 1940, proved to be two eventful nights, for it was on these dates that the class of 1941 presented its class play, "June Mad," a rollicking comedy in three acts, by Florence Ryerson and Colin Clements. As in the past three years, the play was once again directed by Miss Barbara Gerry, who scored her fourth straight hit. The whole production reflected her ability as a coach, and the equal merit of both casts was a proof of her effective work at rehearsals.

The play itself is well written, and it is especially adapted to the talents of high school students. Every member of both casts helped to make the action spontaneous and youthful. The laughter and comments of the two large and enthusiastic audiences were evidences of the overwhelming success of "June Mad."

Those who were responsible for the actual presentation of the play were the following members of the two casts: Catherine Loughlin, Patricia Day, Lloyd Marshall, Alan Bill, Shirley Richardson, Janet Sawyer, Norman Whiton, Clifford Ham, Janet Walsh, Ann Jordan, John Hatch, Richard Cronin, Jeannette Robbins, Ruth Hanson, Howard Jappe, Walter Clarke, John Round, Vito Longo, Alice Keane, Ruth Reynolds, Stephen Sardella, Leon Blanchard, Catherine Carbone, Phyllis Whidden, Frederick Cook, and Edward Seero.

THE LOOKOUT: 1940-1941

In the second year since its inception, the *Lookout* made new strides toward firmly establishing itself as the school paper. The method of printing was changed so that the students themselves would play a greater part in making the format. The burden of this phase of the paper's work fell on the shoulders of the make-up editors and the typists, all of whom were seniors: Janet Sawyer, Virginia Titus, Frederick Tompkins, Phyllis Wass, Adeline Gregoria, Rose Luciano, Michael Maloney, Hazel Phinney, Ruth Shute, and Gladys Walsh.

In an endeavor to gain added favor with the students, the *Lookout* instituted a series of articles about Wakefield students from foreign lands. This popular feature was written by another senior, Jeanne Surette. Among the other regular columns were two by members of the Class of '41: *Vocations*, Shirley Richardson; *Fashions by Fanny*, Virginia Titus. The former series was designed to give students a better picture of business opportunities; the latter was intended to instruct and amuse the clothes-minded girls of Wakefield High. Drawings and cartoons are another new feature of the *Lookout* this year. Although the seniors cannot claim any members of the art staff, they admit that the artists did commendable work.

Besides those already mentioned, the following seniors worked for the *Lookout*: Editorial Staff — Charlotte Hunneman, Ruth Luken, Catherine Maher, Nathalie Monge, Ruth Reynolds, Evelyn Tedford; Business Staff—Robert Amirault, Frederick Cook, Robert Parker, Norman Whiton.

STUDENT COUNCIL: 1940-1941

The recently organized Student Council began its second year under the direction of President Walter Clarke, Vice-President Barbara Black, and Secretary Philip Hatfield. In order to avoid needless discussion and other hindrances, this year, the Council was reduced from forty to twenty members. Of these, seven are seniors, seven are juniors, and six are sophomores.

At the suggestion of Headmaster Peterson, the Council undertook an intensive investigation into the possibility of an amplifying system for the entire school. After extended discussion and two conferences with a representative from the Radio Corporation of America, the members felt it too great a responsibility for so small a group and ceased further action. In mid-year, the Honor Study Room plan was tried out, and it has worked well. In co-operation with the work of Mr. Heavens, director of vocational guidance, the group voted to sponsor a tutorial system to aid incoming freshmen. In Room 05 the backless and uncomfortable stools were replaced with suitable chairs. Several other minor problems were brought before the Council, and were duly solved.

Although the Council is still in its infancy, the younger members have gained much valuable experience; consequently, a more active and efficient Council can be expected next year.

INTER NOS CLUB: 1940-1941

Under the efficient and helpful guidance of Miss Helen F. Gilmore, the faculty sponsor, the Inter Nos Club began its thirteenth year in October, 1940. This year has been not only enjoyable but also successful because of the cooperation and loyal support of both officers and members. The Inter Nos Club Board worked diligently in planning the year's program, which proved entertaining, enlightening, and educational. The following program was presented:

OCTOBER—Mrs. Arthur A. Fulton spoke on Alaska and displayed her fascinating collection of articles and pictures.

NOVEMBER—A demonstration and talk on sandwich making were given by Mrs. Grace Hume, and the candle light ceremony was performed by members of the board.

DECEMBER—Members of the Hi-Y Club were guests of the Inter Nos Club at its annual entertainment, during which Mr. Carl A. Hempel spoke.

FEBRUARY—At this meeting club talent was displayed, and a play was presented by members.

MARCH—Coco Cola Company showed a film on flower arrangement.

APRIL—Annual Tea Dance.

MAY—Annual business meeting and election of officers.

In addition to the regular monthly meetings, the club sponsored other activities. At the time of the Red Cross and Community Fund drives, the girls expressed true club spirit by taking up a collection among their classmates. The girls and boys of the school cooperated wonderfully, with the result that Wakefield High School made a remarkable showing in contributing to the worthy causes of these financial campaigns.

In all that the club undertook, the members cooperated willingly and unselfishly. The girls of the Inter Nos Club might well be proud, for they have shown themselves worthy members of an organization which stands for beautiful and high ideals. It is they who have carried out the club's purpose: "To create a school spirit and intellectually to broaden the vision of each girl of Wakefield High School."

HI-Y CLUB: 1940-1941

Under the able leadership of the officers and the new Hi-Y adviser, Mr. Harold Mew, the Hi-Y Club has had a banner year. The Hi-Y Club of Wakefield held its largest induction ceremony of any year, with twenty-six members being welcomed into the club at one time.

Some of the outstanding activities of the year were the annual Christmas dance, which was held at the high school; the Faculty Night Banquet; Parents' Night; and a camping trip for Hi-Y members.

The members of Hi-Y are indebted to Mr. Harold Mew, the adviser, for assisting in the creation of a better understanding between Hi-Y and the school, and also for the promotion of a more active Hi-Y Club in Wakefield.

THE GIRLS' GLEE CLUB: 1940-1941

The Girls' Glee Club of the Wakefield High School, under the able direction of Miss Vivian Dix, has made several appearances, and their efforts have met with great approbation.

Every Monday afternoon, and on alternating Wednesday afternoons, one may hear any familiar strain from *The Messiah* to *God Bless America*; and, whether it be the entire ensemble or one of the soloists that has evolved from this music-loving group, the feeling of harmony and rhythm is evident.

In May, the girls will present their annual Spring Concert. They are now busily rehearsing for this presentation, as well as for a second performance of the *Mikado*, proceeds of which are to be given for British relief. All in all, the organization is a wide-awake, enterprising group of young music lovers.

BOYS' GLEE CLUB: 1940-1941

The Boys' Glee Club has had several important engagements this season. At the Christmas assembly, the Club contributed several selections and sang jointly with the girls. During a meeting of the Kosmos Club on February 21, the boys presented a fifteen-minute program. A double quartet from the Glee Club gave a short program for the Mothers' Club on February 24. On March 9, the boys took part in the annual concert of the combined music clubs. Mrs. Genesta Tooker of the faculty has been of great help as pianist for the Club this season, while the efficient leadership of Director Arthur Fulton of the faculty is appreciated by the boys. The members of the Boys' Glee Club are as follows:

THE ORCHESTRA: 1940-1941

The Wakefield High School Orchestra has enjoyed a singularly successful year under the direction of Mr. Fanck, who has given freely of his time and ability. As is customary, the orchestra provided music between acts of the Senior Play and appeared at several school assemblies before appreciative audiences. Worthy of note, also, was the praise accorded the musicians upon their outstanding performance at the Spring Concert.

Much credit is also due Mr. Fanck for the splendid work which he has done in the past and which he continues to do with the young people of our school. As the boys say, "He's a regular fellow, too." Next year, Mr. Fanck will have the experience of adding many new members to his organization, for a great number of the present orchestra are graduating in the Class of 1941. How strange it will seem for our patient director not to hear the good-natured heckling of Colby Burbank, Clifford Ham, and Lloyd Marshall. Other seniors who have played two or more years are Ruth Hanson, Barbara Dow, Phyllis Arthur, Leon Blanchard, and Ruth Reynolds. To next year's group we extend our sincere hope for as enjoyable and profitable experiences as we have had.

This year, Miss Sheldon has been assisted in the library work by members of the Library Service Club, and with their cooperation has been able to fulfill many of the needs of the student body. Because of the fact that Miss Sheldon found better work could be accomplished if each pupil on the staff covered more than one period, the club membership has been smaller this year than previously. Some of the library staff have worked for three years, and all have certainly shown their ability to serve the pupils of Wakefield High School.

The fifty-two members of our school band have completed another year of music. Under the skilled supervision of Mr. Fanck, the boys have played at several football games, school assemblies, and the May Concert, and have participated in the Spring Music Festival. This year, instead of the usual night rehearsals, the band has practiced in the afternoon. The following students comprised the personnel of the band during the present school year.

FOOTBALL: 1940

The past season demonstrated to us that we were well represented in the football world by an outstanding team. Under the capable guidance of Coach Healey and the leadership of Co-captains Jimmy Landrigan and George Morgan, the team progressed rapidly.

Starting the season with a more than well-earned 0-0 tie with Malden, Wakefield further proved that this team possessed unlimited power by disposing of Winchester and Swampscott in rapid succession, 19-0 and 38-0, respectively. However, this good fortune did not last, as a fine Woburn team took advantage of our confidence and defeated us 7-0. The tables turned the following week when a very much inspired Wakefield team toppled an undefeated, untied Watertown eleven 7-0. Saugus was the next victim of the red and black, but they proved to be stubborn opposition as the 6-0 score indicates. A scare was given Wakefield in its following game at Rindge Tech, when the home town eleven scored on the first play of the game. But Wakefield was not to be beaten, and our local team proceeded to defeat Rindge 27-13. As usual Wakefield met its Waterloo at Melrose. After outplaying a courageous Melrose team for almost the complete game, a fumble proved to be the deciding factor of the game, and a gallant Wakefield team went down in defeat 6-0. Reading suffered as a result of this loss 19-0. The last game of the season was played with Malden Catholic, and Wakefield completed its season in a blaze of glory by winning 19-0.

During the season many new stars were found. By far the outstanding player was Co-captain Jimmy Landrigan, Wakefield's huge All Scholastic tackle. Without his playing ability and qualities of leadership, Wakefield would not have been so united and strong. Other players well worthy of praise were Phil Herron, a capable center for two years and one of the hardest tacklers on the team; Edward Seero, a versatile player of two years' varsity experience, played either in the line or backfield as the occasion demanded; Co-captain George Morgan, a good ball player, completed three full seasons on the first eleven; John Conroy, a clever field general and unsung hero of the team, a veteran of two and one half years; Mario Rosati, an exceptionally good tackler, played his first year for Wakefield as a sophomore; Frank Spencer, the blocking back, contributed to the team's success; Robert Amirault, the best passer on the team, showed much ability during the season. Ralph Storti, Joseph Stone, Francis Morgan, Patsy Carisella, and Carl Muse were the other important cogs which made up this team. However, every successful team must have some dependable replacements and Wakefield had mighty good ones in Joseph Leone, James Antonioli, Lonny Collins, and Thomas Inglis. Last, but far from least, were the Co-captains for next season's team, Paul Lazzaro and Larry Bartnick, two of the best broken field runners that Wakefield has had for a long time, and both of whom possess the qualifications of worthy leaders.

BASEBALL: 1940

The 1940 baseball team had a successful season, winning seven games and losing only four. The team was aided especially by four of our classmates. Bud Murphy did a fine job at catching and also starred at the bat. Bob Amirault turned in several brilliant performances on the mound and likewise at the plate. Dave O'Connor and Red Hollett did some good fielding, and each came up with a clean single or double when it was most needed.

The Stoneham, Saugus, and Woburn games were easily won. The Melrose game and the return match with Peabody were both hotly contested, with Wakefield losing each by one run. The fine batting of Dave O'Connor and Red Hollett was not enough to give Wakefield victories over a classy Winthrop and a much improved Saugus team. Excellent pitching by Bob Amirault gave to Wakefield decisions over Reading, Peabody, and Stoneham. Hard hitting by Bud Murphy and Bob Amirault contributed to the win over Watertown.

TRACK: 1940

Because of lack of interest on the part of the student body, the combined track and cross-country teams suffered one of the poorest seasons in recent years.

Against Melrose and Medford, the tracksters made strong showings. A part-time performer, Larry Bartnick, was the leading point scorer, his specialty being the dashes. In the field events, George Morgan, Captain, and Ed Seero were outstanding as shot-putters, while Leroy Meuse ranked high as a jumper. Other performers were Donald Rockwell and James Bradstreet, who ran the distances.

The spring of 1941 should prove more successful. Returning from last year's group of lettermen are Morgan, Seero, Meuse, and possibly Larry Bartnick. Patsy Carisella and Paul Christopher, who received numerals last spring, should add to the nucleus around which the team will be built.

This fall, the cross-country team was only slightly more successful than the track team, winning a few of the meets. Malcolm Corbett and Irving Wells, both seniors, co-captained the harriers and were largely responsible for Wakefield's victories.

Other hill-and-dalers included Paul Christopher, Irving Jay, and Stephen Sardella, '43.

Coach Howard J. Heavens, who has developed excellent track teams in past years, will turn the coaching reins over to Lucian Colucci when the 1941 season arrives. This action is a result of Mr. Heavens' appointment as director of vocational guidance.

HOCKEY: 1940-41

Despite the fact that snow, rain, and changing temperatures have made Lake Quannapowitt unfavorable for training, our hockey team has enjoyed a successful season. In fourteen games our team has suffered defeat only once, and has been held to a tie three times. The outstanding battles of the season were those with Melrose, Needham, and Lexington. The games with Needham and Melrose were both tied; but they were moral victories for Wakefield, since Needham led the Bay State Hockey League, and Melrose is a traditional enemy as well as a high-ranking team. The defeat of Lexington, the leader of the Eastern-Massachusetts Hockey League, was another feather in Wakefield's cap. The worst "whitewashing" administered by Wakefield was suffered by St. John's Preparatory School with a score of nine to nothing.

Leading the team in its course of victory were Co-captains Amirault and Muse. Bob and Mike apparently were holding a contest between themselves to see who could score the greater number of goals. Whatever the motive may have been, they certainly kept the opposing goalies busy this year. Some other prominent players were Francis Morgan, Charles MacDonald, Wendell Vidito, and James Landrigan. The rest of the boys are also worthy of praise for the united support they have given their team in its march of victory. The thanks of all are extended to Mr. Charles Kirk, excellent coach.

SALUTATORY

Preserving American Democracy through Research

By WALTER CLARKE, *Salutatorian*

Friends of the Class of Nineteen Forty-one:

As a representative of the graduating class, I welcome you here to-night. We are entering upon a memorable evening, the events of which will always remain in our minds. It is our hope that through the earnest efforts of the speakers, our program will be significant to all. We are at an epoch in history when the supremacy of democracy is dangerously challenged, and we, as Americans, must defend it. With this thought uppermost in our minds, we have chosen for the theme of our program, *Preservers of Democracy*.

Throughout our land, many vital forces are working to preserve our most prized heritage—our democratic way of life. The nature of these agencies is vastly different. Some are attempting to destroy un-democratic organizations; others are strengthening our defense against foreign powers; still other groups have tried to get at the core of vice and poverty which weaken any state. The accomplishments of these agencies are known to all of us. There is, however, still another group, the progress of which may not be apparent to all. I refer to the research experts who form a dominant part of every large industry or corporation.

Hand in hand with industrial expansion, naturally, comes employment. In any country where there are millions of unemployed, dissension against the present government rises; and foreign ideas, detrimental to the welfare of the country, are greedily absorbed by the workless masses. It is there that research, by creating new jobs, not only sets the land upon a sound economic basis, but also destroys this needless ill will.

Advancing from the position of a common mechanic to the vice-presidency of the General Motors Corporation and to the directorship of Research for General Motors, Charles Franklin Kettering has succeeded in preserving, as well as expanding, our American industries for the past twenty-five years. Early he realized his interest in electrical engineering. To acquire the necessary fundamentals, he had numerous obstacles to overcome. The greatest difficulty was his poor eyesight, which almost cost him his life and later forced him to leave Ohio State University for a few years, only to return and graduate when he was almost thirty years of age.

After graduation he was employed for several years at the National Cash Register Company, where he invented the electric cash register. Leaving a promising position there, he started a small company of his own, the Dayton Engineering Laboratories Company, better known today as Delco. It was here that the self-starter as well as his Delco battery was invented. His staff consisted of two unpaid mechanics and a draftsman.

"Boss Ket" likes to tell this little incident which concluded the building of his self-starter: The starter had just been returned from the Cadillac Company, where President Leland said that it was too bulky to

he added to the forthcoming 1912 models. Undaunted, Kettering and his three assistants worked twenty-four hours a day for six consecutive days to reduce the size of the starter before Leland went on his vacation. In order to stay awake, they drank gallons of black coffee. This seemingly impossible feat very definitely shows Kettering's perseverance in what he knew would reduce the hazards of automobile driving.

He had early resolved that before he would undertake any research work, the expected results must be of some benefit to industry. An invention which does not help the people is of no earthly good, since the right to earn a decent living, is an accepted standard in a democracy. Kettering has suggested that if a small part of the \$40,000,000,000 stored away in our various banks could be invested in research work, we should *soon* have new industries that would take care of the unemployed. In the automobile industry, for example, the number of employed has increased from 11,000 in 1910 to nearly 5,000,000 workers, directly or indirectly employed. Nor is this the only industry to increase so rapidly in the past quarter century.

All this research boils down to one short statement—Kettering's favorite definition. "Research is finding out what we are going to do when we can no longer do what we are now doing." There comes a period in the history of every country when people feel that perfection or Utopia has been reached. When people begin to think in this manner, it is time for action.

Once, Mr. Kettering was talking with a group of scientists in his office, and they asked, "What is really new? Why do you worry about anything in science? We know all about it." He said in return that ever since he was a boy, he wondered why he could see through a pane of glass. The scientists laughed and replied, "Why, it is transparent." They promptly opened Webster's dictionary, which gave this single definition: "Something is transparent when we can see through it." And so it is with much of science. We answer the same question in two identical ways and are still at the beginning.

The next ten years are going to witness complete renaissance of scientific development in labor-creating inventions. As usual, there will be those who claim that we have reached a limit. In the words of Charles Kettering, this is nonsense. Go out and look. If we can cast off the bugaboo of "Your world is finished," and put in its place, "The world is begun," we have a marvelous future ahead of us. But we must never lose sight of the fact that only in such democratic countries as America can that splendid future be developed by and for the people. For this reason, if for no other, we must enforce the necessary regulations to protect our American way of life. And encouragement of industrial research is our primary step in the preservation of our democracy.

HONOR ESSAY

Jane Addams, the Good Neighbor

By ANNE MARIE DEMPSEY, *Honor Essayist*

Jane Addams, the first great settlement worker in the United States, in conformity with American principles of democracy, endeavored to establish a place where all people, regardless of race, color, or creed, would be welcomed and, at the same time, find opportunities for cultural growth.

The "uncrowned Queen of America" was born in Cedarville, Illinois, on September 6, 1861. Her father was a prosperous Quaker miller, a friend of Lincoln. Not long after Jane was born, Mrs. Addams died, leaving Jane motherless. She grew up with her father, who advocated equality among all people.

At six years of age, she became exceptionally proud of a coat her father purchased for her. Because of his Quaker tenet of simplicity, Mr. Addams disliked this attitude and told Jane that it was her duty not to covet personal possessions but to help those who were less fortunate than herself. This incident was her first inspiration toward a goal which was fulfilled twenty-three years later.

As a result of her father's belief in education for girls, Jane Addams went to Rockford Seminary, where she met Ellen Starr, a co-founder of Hull House. Later, Miss Addams studied at the Women's Medical College in Philadelphia in order to become a doctor. Because of delicate health, she was forced to forego this ambition.

While travelling in Europe, "America's Joan of Arc" received her second inspiration. She spent her spare hours visiting the slum areas of London, Paris, and Madrid, where she was astounded by prevailing conditions. Toynbee Hall, a pioneer community house in London's East End, especially impressed Miss Addams, for then she decided to establish a similar place in Chicago in a notorious section where youth was hampered by environment.

After spending many weeks looking for a suitable site, she secured the old Hull Mansion. Because of limited capital, she did most of the repair work herself. Following its opening in 1889 were years of financial worry, labor, and discouragement. The people were suspicious of her work at first, but later grew to love her. Today Hull House comprises thirteen buildings and the Bowen Country Club, a seventy-two acre camp for underprivileged city children.

Hull House, America's first settlement house, was designed to be a melting pot where all nationalities could come for personal help and guidance in the democratic way of life. Everyone, according to Miss Addams, has some field in which he could specialize. Frequently this noble woman said, "We shall have to use moral energy to put a new sort of force into the world and believe that it is a vital thing—the only thing in this moment of sorrow, and death, and destruction that will heal the world." Again she declared, "One does good *with* people, if at all, not *to* people." A deep-rooted belief was, "Democracy is perhaps not an attainment but a process

in which we do not force laws on others, but make them for ourselves and bind ourselves as the makers." Truly her forty-six years of success at Hull House were based upon her ability as a fearless thinker and her understanding of humanity.

Among her other activities, she was noted for her peace efforts. She gave Woodrow Wilson her hearty support in an effort to keep this country out of the European conflict. The American Women's Peace Party knew her as leader, and the Women's International League for Peace and Freedom, as founder. The year 1905 found this seemingly tireless woman as chairman of a delegation from the United States to the Hague. Later Henry Ford sent her to Europe with his peace party. Eventually she became the joint recipient of the Nobel Peace Prize in 1931 because of her work in the advancement and promotion of the ideals of peace. And shortly before her death in 1935, she received the American Education Award in return for her contributions to American democracy by her noble experiment at Hull House.

The theme of her life is best expressed by her oft-quoted phrase—"Be a good neighbor." To her, democracy always meant neighborliness; the purpose of democracy—human welfare.

As an authority on child labor, as the founder of Chicago's playgrounds and juvenile courts, as a great teacher of young people, as a crusader for neighborliness in international understanding, and as a masterful exponent of American democracy at its best, Jane Addams is truly deserving of the title, "Preserver of Democracy."

VALEDICTORY

Booker T. Washington, Educator for Democracy

By EVELYN MAE TEDFORD, *Valedictorian*

The long climb upward for the Negro race began in 1865. General Robert E. Lee had just signed the treaty ending the Civil War. Eight million slaves were really free—free to earn money and own farms, free to learn to read and write! Free! The word ran like wildfire over the plantations. Suddenly, the singing and shouting died down. "Where do we go from here?" the Negroes asked themselves. They had no leaders. None of them had received any schooling. Many drifted from the plantations to the towns, only to return in a short while to their former masters. Of this critical period in the life of the Negro race, Booker T. Washington later said, "Even as a youth, I had the feeling that it was cruelly wrong in the central government, at the beginning of our freedom, to fail to make some provision for the general education of our people so that they would be the better prepared for the duties of citizenship."

Among the Negroes that flocked to the towns were Booker Taliaferro, his mother, brother, and sister. As soon as they reached Malden, West Virginia, Booker was put to work in a salt furnace. In order that he might secure an education, he had to work for five hours before school and for two hours in the afternoon. Later he worked in a coal mine; then as chore boy in the house of General Ruffer, owner of the mine.

Although his wages were small and he had to share them with his family, Booker managed to save enough money to go to Hampton Institute, a school for members of his race. After a long journey, a greater part of it on foot, Booker reached the college. Because he was dirty and unkempt, several other candidates for admission were interviewed before him. Finally, Miss Mackie, the head teacher and a loyal Yankee, approached him, handed him a broom, and told him to start sweeping. Booker passed his strange entrance examination with flying colors. During his three years at the institute, he continued to display the same diligence, distinguishing himself as an eager student and a polished debater.

A few years after graduation, he was called back to Hampton to be a "house father" to a group of seventy-five Indian youths. The broad-minded head of the school, General Armstrong, was experimenting with the advisability of extending education to the Indian. Booker had to break down the superiority complex of the red men as well as to correct many of the living habits of his charges. His success in this work paved the way to his appointment as head of a normal school in Tuskegee, Alabama. When Booker received the news, he immediately departed in high spirits for Tuskegee. What a surprise awaited him! The school had no buildings, no teachers, no students—only a law giving it two thousand dollars a year to pay the teachers' salaries. Booker had to borrow money on his own security to buy land for the campus. When the cornerstone of the first permanent structure, Porter Hall, was laid in 1881, it marked a milestone in the progress of the black race. Only sixteen years before, the colored people had been held in slavery and had been prohibited by law from receiving education. Now ex-slaves and ex-slave-holders were celebrating the laying of the cornerstone of the first building of the first university founded by Negroes for Negroes.

While Booker was raising the money to cover the cost of erecting Porter Hall, an incident occurred which showed how keenly interested the blacks themselves were in the cause of Negro education.

One day an old colored woman hobbled into Booker's room. She said, "Mr. Washington, God knows I spent de bes' days of my life in slavery, God knows I's ignorant an' poor; but I knows you is tryin' to make better men an' women for de colored race. I ain't got no money, but I wants you to take dese six eggs an' put dem into de eddication of dese boys an' gals."

In planning the courses of study at Tuskegee, Booker T. Washington had three definite aims: "The student shall be so educated that he shall be able to do the thing that the world wants done; second, every student who graduates from the school shall have enough skill, coupled with intelligence and moral character, to enable him to make a living for himself and others; third, that we shall send every graduate out feeling and knowing that labor is dignified and beautiful." To accomplish this three-fold purpose, Booker instituted a combination industrial-academic course

—later adopted by other colleges. When Tuskegee students complete their dual college careers, they are ready to go throughout the South, teaching the less fortunate members of their race how to read and write and how to be better farmers and more skilled craftsmen.

In addition to being president of Tuskegee and the chief solicitor of funds for its maintenance, Booker T. Washington found time to make speeches. He reached the peak of his oratorical fame at the Atlanta Exposition. In his speech he emphasized two points: the Negro must be willing to start at the bottom and work up; the Southern whites need the help of the Negroes. "One-third of the population is of the Negro race. No enterprise seeking the material, civil, or moral welfare of this section can disregard this element of our population and reach the highest success." The speech was hailed as a masterpiece all over the country. Booker T. Washington had started the process of cementing the two elements of the South together—he later to be known as one of our greatest teachers of democracy.

Less than a year after he delivered his Atlanta Exposition address, Booker T. Washington received a letter from Harvard University expressing the desire of that institution to confer on him an honorary degree. Booker himself best describes his feelings on receiving this notice.

"As I sat upon my veranda, with this letter in my hand, tears came into my eyes. My whole former life—my life as a slave on the plantation, my work in the coal-mine, the times when I was without food and clothing, when I made my bed under a sidewalk, my struggles for an education, the trying days I had had at Tuskegee, days when I did not know where to turn for a dollar to continue the work there, the ostracism and sometimes oppression of my race—all this passed before me and nearly overcame me."

By honoring Booker T. Washington, pioneer in the field of Negro education, the oldest college in the United States was demonstrating the true principles of democracy.

There remained one other project for Booker to heighten the respect of the nation for the colored race and to further the cause of Negro education. That was to have the President of the United States visit Tuskegee. On the sixteenth of December, 1897, President and Mrs. McKinley and all but one of the Cabinet officers spent the day at Tuskegee Normal and Industrial Institute. One of Booker's greatest ambitions had been fulfilled.

For our last glimpse of this great-hearted teacher of democracy let us refer to a special story that he used before white audiences:

One day, while out walking, he had met a Negro woman, carrying a large basket on her head. "Where are you going, madam?" he had asked.

"Whar is I guine? I done bin whar I'se guine," she had replied.

At that point, Booker would lean over the speaker's desk, his voice would become firmer as he said, "Perhaps your race has been where it's guine; mine has just started."

Booker T. Washington was not making any pretentious claims for the educational development of his race, but he did want people to realize that

the Negroes were moving. And what better definition of American democracy is there than UNIVERSAL PROGRESSIVENESS?

Classmates:

Tonight we bring to a close one phase of our education. For some it is the end of formal schooling; for others, the door to college. Whichever the case, it must not be a cessation of mental development. We must be keen and alert, ready for the trials ahead. Today, democracy is on the testing grounds. If we fail in our tasks, the whole system will collapse. Unless we keep abreast of educational progress throughout the world, government of, by, and for the people will disappear. Such persons as Jane Addams, Charles Kettering, and Booker T. Washington have devoted their lives to preserving and improving democracy. It is our turn now to defend her. Let us, then, uphold the trust the world has placed in us by faring bravely forth as champions of democracy, remembering ever our motto, "Today Decides Tomorrow."

TO WAKEFIELD HIGH SCHOOL

Dear School, you've known our many joys and fears,
Our sad disasters and our triumphs, too.
You've stood beside us through the passing years,
And now we pledge our loyalty to you.

Though brightly shines the sun through our moist tears,
A weight of lead has smote our hearts in two.
For though our paths may cross in coming years,
No more shall we spend happy hours with you.

You've opened wide the gates to Life for us,
And though ahead our goal we dimly see,
Yet still your love we'll ever cherish thus,
In confidence of blessings soon to be.

At last the hour for parting has arrived,
And we must find our way alone—untried!

HISTORY OF THE CLASS OF 1941

FRESHMAN YEAR

1937-1938

CONTACT

In September of 1937, 310 selectees were inducted into service in the auditorium of the High School, which served as the first assembly line.

Because of the afternoon session, we had the building practically to ourselves, so we were not exceedingly embarrassed when we got lost in the strange, long corridors of the plant.

We soon became accustomed to the new routine and settled down to hard work, so that we might produce great machines with which to earn our wings. Many of our members attained high rank on the Honor Roll, for which we were justly proud.

It was now that Miss Sheldon came to W. H. S. as librarian and Miss Neagle was transferred from the Hurd School to help us master the fundamentals of English.

The Glee Club was very popular, and some of the members, who are now our prominent vocalists, were Jeannette Robbins, Ruth Monegan, and Robert Parker, who took an outstanding part among upper classmen in "Trial by Jury."

Sports attracted many, and it was here that George Morgan, James Landrigan, John Conroy, and Patsy Carisella started their fame as "Supermen." The girls turned out in full force for tennis, archery, baseball, and bowling.

Then came June and we were ready for the take-off as upperclassmen.

SOPHOMORE YEAR

1938-1939

THE TAKE-OFF

In the fall of 1938 we returned to the hangars with only 265 fliers answering the roll call.

James Landrigan, George Morgan, and Edward Seero were the sophomores who shone in the glory which surrounded our football team.

On the basketball court Captain John Conroy was the star who made the amazing record of shooting 241 points in 15 games. It was by his ability that the school won the league championship and John was elected co-captain for the next season.

The Inter Nos and Hi-Y Clubs offered membership, and many sophomores took advantage of this opportunity.

As upperclassmen we participated in all junior and senior events, but by the end of school we were eager to try our skill at "Solo."

JUNIOR YEAR
1939-1940

FLIGHT

At last we started on our flight as juniors. When November rolled around, our Squadron Commander Peterson called us together to elect class officers. The campaign was not bitter, but feeling ran high and competition was keen. The results were:

Treasurer	Philip Herron
President	George Morgan
Vice President	Edward Seero
Secretary	Carmen Rinaldi

At the close of the football season, "Gabby" Morgan and "Jimmy" Landrigan were elected co-captains to lead us to victory the next year.

Under the guidance of our Airlines Hostess, Miss Gilmore, we started plans for the Junior Prom, choosing "Gone With the Wind" as our setting. A capable committee succeeded in making our first dance a tremendous success.

In the spring we had two afternoon socials. The first was under the direction of the "Lookout" staff, and the second was a benefit for the basketball team. These socials proved to be very popular, and were highly approved by Mr. Peterson and the faculty.

In May came "The Mikado," in which some of our members distinguished themselves as having operatic talent. "The Mikado," probably the biggest musical ever produced at W. H. S., claimed many of our talented members in its cast. Robert Parker and Jeannette Robbins provided the romance as Nanki Poo and Yum Yum. They were supported by Ruth Monegan as Petti Sing; Olive Vidito as Peep Bo, and Alan Bill as Ko Ko, the Lord High Executioner. An excellent chorus, to which many of our class lent their melodious voices, helped to make "The Mikado" a huge success.

At a class meeting we chose for our motto "Today decides Tomorrow," and the colors, maroon and gold.

At graduation of the class of 1940, the music was furnished by the school orchestra in which there were many junior members, and junior boys served as ushers.

Thus, in June, our solo flight successfully ended, and we were ready for

SENIOR YEAR
1940-1941

THE LANDING

Upon landing and taking over the field we found it was necessary to switch controls, so we again held a class election. The commanders were now:

President	George Morgan
Vice President	Nathalie Monge
Secretary	Shirley Richardson
Treasurer	Philip Herron

With "Gabby" Morgan and "Big Jim" Landrigan as co-captains, our football team experienced a winning season. The band and the cheerleaders supported the team at every game.

During our four years at school the W. H. S. Band benefited by the participation of several members of the class of '41. Under the competent leadership of Drum Major Colby Burbank, the band played at all football games, music festivals, and events where their presence was requested. Many new formations were perfected in the fall of 1940, and much credit is due Mr. Fanck and the seniors who made it possible.

The National Defense Program gained and we lost—when Irving Jay, a prominent member of our class, was inducted into the Federal Service January 16, 1941, under the Selective Service Act.

Then came class meetings with much advice and many instructions from the field officials concerning the final weeks of training, college boards, pictures, committee meetings, caps and gowns, rehearsals, banquets, receptions, and farewells.

But June 5 came at last, and that night we received our "wings"; so now, with vision clear and ceiling unlimited, we look into the future.

The Committee:

Charlotte Hunneman	Phyllis Whidden

WRITTEN IN LATE EVENING

(With abject apologies to William Wordsworth)

I heard a thousand tuneless notes
While in a hall I sat reclined,
And so this simple verse I wrote
To soothe my troubled mind.

To our fair works did Nature link
Two shapely feet on which to stand:
Oh, much it grieves my heart to think
What swing has made of man!

Our masters of sweet symphony
Give always music of great worth;
Such vibrant strains of melody
Can move the solid earth.

The "gates" around me hopped and swayed,
Their thoughts I cannot measure,
But the least motion which they made,
It seem'd a thrill of pleasure.

The swishing arms spread out their hands
To catch the breezy air;
And I can't think, do all I can,
That there was rhythm there!

If these mad steps for grace are meant,
Then changed be Nature's holy plan;
Have I not reason to lament
What swing has made of man?

OUR CLASS POEM

ALMA MATER

By BARBARA TREDINNICK, '41

Dear School, may none of us forget
How great and precious is our debt
To you of happy years soon fled,
When newfound trust and friendship shed
Their golden light upon our way
And gave new joy to work and play!

Dear School, when ours the hardest task
Which academic duties ask,
In busy class or on the field,
May we strive on and never yield.
May we subdue the traitor mood
And face the worst with fortitude!

Dear School, as sadly forth we fare
Into the world beyond your care,
This be our hope: that to the end
We keep our motto for our friend.
TODAY DECIDES TOMORROW—true;
So may our future honor you!
